

NMT Ultra Thermal Films

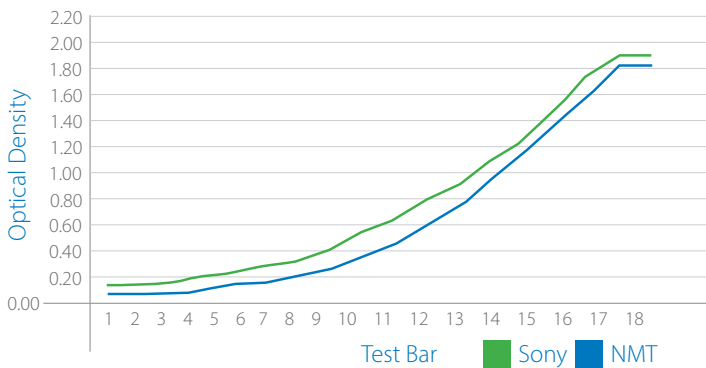

NMT Ultrasound films are designed to be utilized in medical diagnostic applications requiring the use of ultrasound systems. When comparing your current film to NMT Ultra you will find the physical attributes to be the same as other leading manufacturers.

In our recent study comparing NMT Film to other brands, we've identified that NMT meets expectations as a cost-effective alternative. Notably, in performance criteria for graininess, contrast and density. We believe NMT Ultra to be the best value and cost per print and quality.
